Profile

Proactive and self-motivated 2nd year B.Tech student in Computer Science with a strong interest in building practical solutions using programming and logical thinking. Experienced in developing real-world applications from scratch, managing code using version control systems, and working with structured data. Possesses the ability to learn new technologies quickly, adapt to diverse domains, and contribute effectively in both team-based and independent environments. Actively seeking internship opportunities to gain hands-on industry exposure and apply technical and analytical skills across various roles.

Education

Bachelor of Technology in Computer Science (Data Analytics)

Vellore Institute of Technology (VIT-AP), Amaravati

2024 – 2028

Board of Intermediate Education

FIITJEE Junior College, Vijayawada

94.5%

Secondary School Education

Narayana School, Vijayawada

97.1%

Projects

Smart Expense Tracker

Python, CSV, GitHub, VS Code

- Developed a menu-driven Python application to record, store, and manage daily expenses.
- Implemented CSV-based file handling for persistent and structured data storage.
- Applied logical program flow and modular design principles to simulate real-world application behavior.
- Used GitHub for version control and maintaining a clean project workflow.

Technical Skills

Programming Languages: Python (Basics), C Language

Tools & Platforms: Git, GitHub, VS Code

Core Concepts: Data Structures (Basics), File Handling (CSV)

Additional Skills: Problem Solving, Analytical Thinking

Certifications

- Python Certification — Soft Tech Software Training (3 Months)
- C with Data Structures — Soft Tech Software Training (3 Months)
- Oracle Cloud Infrastructure 2025 — AI Foundations Associate

Achievements

- Secured 11th position in Spell Bee State-Level Competition.
- Participated in State-Level Singing and Dancing Competitions.
